Professor Andrzej Napieralski, M.Sc., Ph.D., D.Sc., SM IEEE, dr h.c.
Head of Department of Microelectronics and Computer Science
e-mail: napier@dmcs.pl

21 September 2015

Dear Sir or Madam,

It is my pleasure to recommend Mr Daniel Dobiński for studies within the Erasmus Mundus Master Course in Sustainable Transportation and Electrical Power Systems.

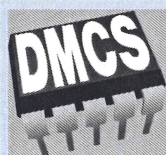

Mr Dobiński has been my student for more than 2 years and he has shown academic aptitude and ambition above and beyond among his peers. He was attending several of classes in my department (The Department of Microelectronics and Computer Science DMCS) but most notably performed remarkably on Power Devices and Systems. He has often made critical points on class discussions that demonstrated his exceptional ability to analyze advanced electronic circuits. Daniel is skilled, communicative person who will definitely strive to be of the best student.

Please feel free to contact me should you have any question.

Yours sincerely,

Kierownik Katedry
Mikroelektroniki i Technik
Informatycznych PŁ

Prof. dr hab. inż. Andrzej Napieralski
