**Recommendation letter for Mr Daniel Dobinski,**

To the members of the Admissions Committee:

My name is **Jesús Fraile-Ardanuy** and I am an Assistant Professor at ETSIT-UPM (Spain). This recommendation letter is provided at the request of **Mr. Daniel Dobinski**, who has asked me to serve as a reference on his behalf, as Daniel will be considered by your Organization for admission to the Erasmus Mundus Master Course in Sustainable Transportation and Electrical Power Systems.

I came to know Daniel when I was his professor in the Electrical Engineering course during the second semester of the academic year 2013 - 2014. Just a few weeks after the beginning of the course, Daniel came to ask me after one lecture about load frequency control, as he felt rather curious about the techniques that actual electrical grid uses to solve its different problems. After this talk, I realized Daniel not only has a good command about these concepts, but also shows an inquiring mind on subjects of his interest.

Daniel demonstrated an excellent interpersonal skills and always had a positive attitude. In my opinion, Daniel is well equipped to grow from challenges that he is presented with. Despite the added difficulty for him to study in other language, Daniel followed my course without problem, presenting outstanding commitment to his studies.

In conclusion, I am pleased to strongly recommend Daniel as a candidate for your program. If you would like any further information regarding him, please feel free to contact me.

Sincerely,

Jesús Fraile Ardanuy, Ph.D  
Associate Professor  
Department of Physics Electronics, Power System and Applied Physics.
